

Thistle Hotel, Glasgow

Summer 2008

Total re-decoration of the largest Glasgow Hotel Ballroom and adjacent hospitality suites at The Thistle Hotel.

Client: ROK Building

Critical timescale to accommodate future bookings.

The work:

- Remove existing specialised papers
- Prepare surfaces for new coverings
- Fill, sand and prepare new surfaces following cosmetic changes
- Apply new paint finishes
- Hang new specialist papers

Very tight schedule with little margin for error and had to be completed on time no matter what. Fixed price job, so again down to us.

To establish that it could be done and just in case of early difficulties as old specialised papers can be difficult to remove, we swamped the job with labour for a good start and that was a smart move.

We have specialised teams of decorators: experienced in the preparation of surfaces for both expensive coverings and paint finishes.

With some long hours, our teams completed the project a few days ahead of schedule and at the clients fixed price. No extras, no additional charges, top class finish and everyone was happy.

Another M&S job: on time, on quality and within cost.
